

# Kentucky Perinatal Quality Collaborative

## KyPQC BULLETIN

*Working together to make  
Kentucky a great place for every  
woman to have a baby and a great  
place for every baby to be born.*

### Learn from the Experienced

Early January 2020, KyPQC central staff traveled to Chicago, IL for a site visit with the IL PQC. The visit resulted in the attainment of invaluable information and insight on starting and managing a PQC. Visit the IL PQC website to learn about the success a PQC can accomplish.

### KyPQC Launch Webpage Active

The KyPQC Launch landing page is now available! This page contains the presentations from guest speakers, posters of birthing hospital's quality improvement projects, and additional resources. This webpage will be very informative for those unable to attend the live event at Churchill Downs.

### KyPQC Webinar Series

KyPQC will host regular webinars to sustain momentum and buy-in from our valuable stakeholders and partners. The first webinar "Quality Improvement in a Collaborative Setting" by Dr. Hannah Fischer was held January 16, 2020. To view this webinar for CEUs click on link below (Course ID:1089339)

## KyPQC Next Steps

- The Alliance for Innovation on Maternal Health (AIM) is a national data-driven maternal safety and quality improvement initiative. Kentucky is submitting an application to team up with AIM.
- KyPQC will host regular webinars and learning events to sustain momentum.
- KyPQC has begun planning for the next Fall Annual Meeting.
